Projects

- **[Battleship:](#)** Feb 2023 - Mar 2023
This game is a multiplayer online version of the classic game, featuring real time matches and an in-game chat with emoji support. It uses a client and server architecture to handle multiple players and games simultaneously. Built with Java and JavaFX GUI.
- **[Messaging App:](#)** May 2023 - June 2023
A JavaFX messaging app with a server and client setup, enabling users to send individual or group messages. It also supports group creation, adding friends, and tracking active participants.
- **[TicTacToe:](#)** July 2023 - Aug 2023
This is a web based Tic-Tac-Toe game built with Python, JavaScript, HTML, and CSS . The game features a responsive design for both desktop and mobile, allowing two players to play against each other.
- **[BlackJack:](#)** May 2024 - June 2024
This game lets players compete against an AI dealer, placing virtual bets while following standard blackjack rules. The goal is to get closer to 21 than the dealer without going over. Built with Java and JavaFX GUI.
- **[Personal Website:](#)** Aug 2024 - Sep 2024
My personal website; made using HTML, CSS, and JavaScript.

Experience

- **Online Tutoring** Chicago IL, Aug 2023 - Present
Provided personalized tutoring to students through one-on-one sessions, effectively conveying complex concepts in data structures and other programming.
- **Content Creating** Remote, Dec 2016- Present
I'm a professional content creator with over 8 years of experience editing and working for various influencers.
